

CHAPTER 4

STATE LEVEL RESULTS

1. Number of Operational Holdings and Operated Area

1.1 With comparatively larger geographical area among all the States of the Indian Union, Uttar Pradesh stands on top with highest number of operational holdings (21.53 million) in the country. Alongwith Madhya Pradesh and Bihar the region constitute about 39.20 per cent of operational holdings. The operated area of these three States work out to 31.31 per cent of the total operated area in the country. If one include the adjacent States of Maharashtra and Rajasthan the share of number of holdings from this region will move to 53.0 per cent and the operated area will become 56.5 per cent. On the southern belt, the three major States of Andhra Pradesh, Karnataka and Tamil Nadu have 21.5 % of number of holdings and 20.7 % of operated area. The results on concentration of operational holdings belonging to SC and ST for these regions work out to 68% and 64% respectively. As regards area operated, the respective ratios are 81% and 70.37%. However, the Average area per holding which may be considered as a measure of consolidated economic unit show Rajasthan, Gujarat, Punjab, Haryana, Madhya Pradesh, Nagaland, Arunachal Pradesh and A & N Islands with more than 2.00 ha. per holding. Among SC holdings, the States of Rajasthan and Gujarat lead the table with more than 2.00 ha. as average area per holding. Due to concentration of holdings to particular pockets of their geographical area, the ST holdings in the States of Gujarat, Madhya Pradesh, Maharashtra, Nagaland, Rajasthan, Arunachal Pradesh and Sikkim have registered higher average of above 2.00 ha. However, the average area per holding of SC and ST holdings is less than 1.00 ha. in most of the other States. The following table presents the relative position on distribution of number of holdings and area operated by States and Union territories :

State-wise & Social group-wise Distribution of Number of Operational Holdings and Area Operated

Sl. No.	States/UTs	Number (in '000)			Area (in '000 ha.)			Avg. Size per holding (in ha.)

1.2 The details on number of operational holdings and area operated were collected **by gender** for the first time in Agricultural Census, 1995-96. The following table show the relative position of Male and Female operational holdings in Scheduled Castes, Scheduled Tribes and All Social Groups. Here again the ratio of female holdings work out to less than 10 per cent of the operational holdings in each social groups. The area operated is around 7 per cent for female holdings.

2. Tenancy

2.1 As expected the operational holdings who operated their own area constitute the bulk of the operational holdings in all the States. The percentage of number of operational holdings who owned and self operated work out to 90%—99% in most of the States followed by leasing. A shift towards wholly owned and self operation mode is noticed over the past five years. Relative position of SC & ST operational holdings can be seen from the tables below :—

4. Net Area Sown

4.1 For All Social Group, while the Net Area sown to operated area have been registered at more than 90% in major States like Assam, Gujarat, Goa, Haryana, Karnataka, Madhya Pradesh, Manipur, Orissa, Punjab, Meghalaya, Uttar Pradesh and West Bengal, the ratio is between 60—90% in respect of Andhra Pradesh, Bihar, Rajasthan, Maharashtra. Land un-cultivated work out to more than 10% in respect of Arunachal Pradesh, Bihar, Himachal Pradesh, Jammu & Kashmir, Nagaland, Rajasthan, Sikkim, Tripura. The land not available for cultivation is less than 5% in all the States of India except Arunachal Pradesh, Himachal Pradesh, Kerala and Sikkim. Nevertheless to say, the hilly tracts may be the reason leading more than 5% of land not available for cultivation in respect of the States like Arunachal Pradesh, Himachal Pradesh, Kerala and Sikkim. The distribution of Net Area sown to operated area by different social group may be seen from the following tables for each social group:

5 Irrigated holdings

5.1 The data on irrigation was classified as (i) holdings receiving irrigation wholly to the operated area, (ii) holdings not receiving irrigation and (iii) holding who received irrigation to a part of their operated area. The operated area in category (iii) further bifurcated by area irrigated and total area operated by them. The following table show the distribution of number of holdings receiving irrigation.

Number of holdings receiving irrigation and area irrigated

31	Chandigarh	2	2
32	Daman & Diu	Neg.	Neg.
	All India	55899	52955

Note : Total may not tally due to rounding off.

5.2 It is seen that number of holdings receiving irrigation is high (more than 50%) in States of Punjab, Andhra Pradesh, Haryana, Uttar Pradesh, West Bengal etc. In States like Madhya Pradesh, Maharashtra, Kerala, Karnataka, Tamil Nadu, Orissa, Rajasthan, Sikkim the percentage lies between 25-50%. In other State the number of holdings receiving irrigation is far less than 25%.

6. Net Irrigated area

6.1 The source wise area irrigation is presented in the following table. Canals and tubewells constitute major source in most of the States.

Size Class : All Sizes		Social Group : Scheduled Castes				Number in '000 Area in '000 ha.

7 Gross Cropped area

7.1 The gross cropped area over the latest two censuses have shown an increase of 2.1 million hectares. The distribution of gross cropped area in 1990-91 and 1995-96 show that the state of Andhra Pradesh, Haryana, Madhya Pradesh, Tamil Nadu, Uttar Pradesh have registered a higher value contributing a quantum increase at All India level. The following table shows the statewide distribution of Gross Cropped Area in 1995-96.

Area in '000 ha.

Sl. No.	States/UTs	Gross Cropped Area			Gross Irrigated Area		
		SC	ST	ASG	SC	ST	ASG
1	Andhra Pradesh	1015	1016	14163	359	209	5712

7.3 While the Irrigation Intensity is impressive in the States of Punjab, Haryana, Himachal Pradesh, West Bengal, the need to improve the irrigation status in other states requires attention by planners. Scheduled Tribes holdings by virtue of the location of their operated area in hilly tracts, have lesser option and hence, low Irrigation Intensity is observed.

7.4 As regards Cropping Intensity, the states of Punjab, Haryana, Himachal Pradesh, Uttar Pradesh and West Bengal have registered better ratio to other States. However, the ratio in respect of Scheduled Castes holdings and Scheduled Tribes holdings have registered a higher Cropping Intensity in most of the states showing their interest or dependent intensiveness in cultivation.

8 Dispersal of area

8.1 Dispersal of Area is measured by the proximity of the operated area from the village of residence of the operational holdings. For this purpose, the residence of the operational holdings and the location of the operated area are classified as :—

- (i) Operational holdings and operated area located in the same villages.
- (ii) Part of the operated area is outside the village of residence but within the same Tehsil.
- (iii) Entire area located outside the village of residence location but within the Tehsil.
- (iv) The operational holdings residing outside the Tehsil.

8.2 The State-wise position of the above is presented in the following table. Evidently the percentage of operational holdings whose area is in the same village is 90% or more in most of the States. In fact, in respect of SC/ST holdings this is nearly 100% in most of the States. This shows that the SC & ST holdings have their area consolidated at one place, viz. the village of residence.

Estimated Number and Area of Operational Holdings by Size Classes and Dispersal of Operated Area
